Powerful Security

Enhanced Security

Physical jolts, unauthorized user access code or cards activates the alarm.

Electro Static Discharge (E.S.D.) Prevention

Circuit board protects from the damages incurred from a high voltage surge.

Anti-panic Exit System

Allows you to open the door by simply turning its handle from inside.

Fire Detection Sensor

When the indoor temperature exceeds a certain limit, an alarm sounds and the door automatically opens.

Emergency Access

Jump start the lock with a 9V battery for instant power.

Structure

Outer Body

RF Card Reader

Key Pad

Inner Body

Manual Open/Close Button

Convenience

Automatic Locking

Door lock will be locked automatically when your door is closed.

Keypad Volume Control

Volume adjustable (3 levels including mute)

Low Battery Warning Signal

A "beep" sound during door access will alert you to replace batteries
